# ALLAN COOPERSMITH

Esthetics has always been an integral focus in my painting and dental careers. I love to make forms and colors dance to your mood's desire and send a message to your soul.

AT THE BEACH

A detailed oil painting of a river with rapids. The water is rendered with dynamic, swirling brushstrokes in shades of blue, white, and yellow, creating a sense of movement and turbulence. Large, dark brown rocks are scattered throughout the riverbed, some partially submerged. The background shows a dense forest of green trees on a hillside under a pale sky. The overall style is expressive and textured.

# Gail Butters Cohen

Butters Cohen is an expressive figurative and landscape artist. Living between South Florida and her Ivory cottage and studios, she is inspired by long walks in the Lawrentian woods, generational connections and the ways in which each informs the other. Working in countless layers, she embraces concepts of memory and relationships, the lost and the found, throughout the undulating seasons of our lives.

Julep Dreams  
12x12 oil on wood panel

The background of the entire image is a close-up photograph of water ripples. The colors transition from a deep, dark blue on the left side to a bright, vibrant green on the right side. The ripples create a complex, textured pattern of concentric circles and irregular shapes, giving the water a shimmering, almost crystalline appearance. The lighting is bright, highlighting the peaks of the ripples and creating a sense of depth and movement.

# Peter Clark

Peter Clark is a professional photographer living full-time at Lake Manitou, with works in collections in the United States, Jamaica, Mexico, India, Switzerland and Canada. His colourful complex images of Nature and cityscapes play on the ambiguity between reflection and reality, and invite the viewer to engage more deeply in their environment.
